What is the Reiseanalyse?
The Reiseanalyse is a national survey which records and describes the holiday travel behaviour of the German-speaking population resident in Germany. In 2020, the survey will be carried out for the 50th year in a row with the same thematic and methodological approach - as long as no other survey in social and market research worldwide.

What is surveyed?
The survey concentrates on holiday trips of five days or more and short breaks of two to four days. Key elements of the Reiseanalyse include a description of holiday and travel behaviour, as well as the assessment of holiday motivations and interests. The future potential of destinations, types of holiday and holiday activities are also covered by survey questions.

How is the survey conducted?
Within the scope of the Reiseanalyse, more than 12,000 interviews are conducted in Germany. Of these, 7,500 are face-to-face interviews lasting around one hour and additional 5,000 online. The survey focuses on holiday trips with at least one overnight stay. A distinction is made between holiday trips of five days or more and short breaks of two to four days. The results are representative of the German-speaking population. For details of the survey structure and all topics covered in the RA 2020, visit www.reiseanalyse.de.
What does participation in the Reiseanalyse offer me?

All partners of the survey are given access to the results of the extensive set of standard questions that has been largely unchanged for many years. Survey questions cover holiday travel experience in the past three years, travel behaviour in 2019, holiday motivations and interests as well as travel intentions for the near future. All results can be analysed in detail and most are available for long-term time series. Analysis based on Sinus-milieus® also forms part of the Reiseanalyse.

Basic participation is a prerequisite for further services, like modules or additional questions.

What can I customise the Reiseanalyse?

The Reiseanalyse offers various optional additions, allowing you to adjust the survey and results according to your requirements.

The RA is carried out by the FUR (Forschungsgemeinschaft Urlaub und Reisen e.V.), an independent association and the biggest non-profit organisation commissioning tourism research in Germany. The FUR does not make any profit. All surpluses are reinvested in full into research and the further development of the survey. The FUR publishes selected results for a wider audience (e.g., German Holiday Trends 2025).

A team of three partners implements the Reiseanalyse: the FUR together with the NIT (Institute for Tourism Research in Northern Europe) are responsible for organisational and scientific aspects of the survey. IPSOS is responsible for field work and data processing.

What do I get if I participate in the Reiseanalyse?

Included in the basic participation:
- Rights of use to all results of the standard questions
- Detailed reports on results and methods
- Printed report with interpretation of key findings
- Customised tables
- Individual data evaluation support
- Exclusive yearly customer event (Reiseanalyse evaluation conference)
- Optional use of additions

When do I get the results?

Personal interviews take place in January 2020, with first results available in March 2020. Detailed reports, tables etc. are provided from April 2020. The evaluation conference will take place in spring 2020.

How much does it cost?

Basic participation is a prerequisite for using Reiseanalyse data. If the participation declaration is submitted early (until 15/11/2019), it costs EUR 10,400, afterwards EUR 10,900. Additional thematic modules start from EUR 5,500, two modules are available for EUR 10,500, three for EUR 15,000, optional software for data evaluation is starting from EUR 3,900 (all prices plus VAT). Prices for additional and exclusive questions depend on the scope and are agreed on request.

Who uses the Reiseanalyse?
